Dear Sir,

ACCEPTANCE STATEMENT FOR THE SCHOLARSHIP

I fully accept with gratitude the *Hermann and Marianne Straniak* Scholarship of the Vienna Masters of Arts in Human Rights full tuition waiver of **20,600 Euros**. I feel extremely humbled and delighted with this Scholarship awarded to me. I am very grateful to the Foundation. I will cherish the Scholarship with commitment to my field of study in honour of the *Hermann and Marianne Straniak Foundation* and the University of Vienna.

My career prospects are to become a well-trained Human Rights Practitioner who will in diverse ways and through various fora contribute to the promotion, observance and respect of Human Rights of all people regardless of race, religious orientation or ethnicity of an individual, etc. With my first degree being a Bachelor of Laws, a specialization in Human Rights will equip me with the expertise to be able to provide professional advice for better legislation by States and Governments on Human Rights issues. My experience in Human Rights issues as perceived from my country Zambia (Africa) would also enrich and benefit fellow students from other countries and continents alike.

The University of Vienna's Master of Arts in Human Rights offers a great opportunity for me to acquire the necessary expertise and skills for a professional career in the field of Human Rights Law. The structure of the course/program is well designed to further develop my knowledge and understanding of Human Rights at an international level. The international, interdisciplinary, practice-oriented programme will be beneficial to my work place (employer), country, the world through international engagements, and indeed to me as an individual interested in becoming a Human Rights Expert at an international level.
